

Name:Thanigaivel S

Reg no:192565006

The screenshot displays the SIMATS Online Programming Lab interface. The browser address bar shows the URL: `simatslab.saveetha.com/practice_app/classactivity/attempt?assignment_id=233`. The page header includes the SIMATS ENGINEERING logo, the title "SIMATS Online Programming Lab", and the user's name "Thanigaivel S" with their registration number "192565006RB".

The main content area is titled "CO1-Output Prediction" and features a "QUESTIONS" sidebar on the left. The sidebar lists three questions: Q1 (Largest and Smallest element, 1 mark), Q2 (Second Largest Element, 1 mark), and Q3 (Occurrence of an element, 1 mark). The "2/3 answered" status is shown at the bottom of the sidebar.

The main question area displays "Q1 Largest and Smallest element" with a "1 mark" value. The question text is: "Write a C program for Find the Largest and Smallest Element in an Array".

The "Your Code" section contains the following C program:

```
1 #include <stdio.h>
2 int main()
3 {
4     int n,i;
5     printf("enter the number of elements:");
6     scanf("%d",&n);
7
8     int arr[n];
9
10    printf("enter %d element:\n",n);
11    for (i=0;i<n;i++)
12    {
13        scanf("%d",&arr[i]);
14    }
15    int largest = arr[0];
16    int smallest = arr[0];
17
18    for (i=1;i<n;i++)
19    {
20        if (arr[i] > largest)
```

The "Input" section shows the input values: "3" and "1 2 3". The "Output" section is currently empty.

C01-Output Prediction

QUESTIONS

- Q1 Largest and Smallest element 1 mark
- Q2 Second Largest Element 1 mark
- Q3 Occurrence of an elemnet 1 mark

2/3 answered

Q2 Second Largest Element 1 mark

Write a C program for Find the Second Largest Element

Your Code

```
1 #include <stdio.h>
2 int main()
3 {
4     int arr[100],n,i;
5     int largest,secondlargest;
6
7     printf("enter the number of elements:\n");
8     scanf("%d",&n);
9
10    printf("enter the elements:\n");
11    for(i=0;i<n;i++){
12        scanf("%d",&arr[i]);
13    }
14    largest=arr[0];
15    secondlargest=arr[0];
16
17    for(i=1;i<n;i++)
18    {
19        if(arr[i] > largest)
20        {
```

Input

3
1 2 3

Output

SIMATS Online Lab SIMATS Online Programming Lab DS PROGRAMMING Thanigaivel S 192565006RB

Memory usage: 108 MB

Q3 Occurrence of an elemnet 1 mark

Write a C program for Find the First and Last Occurrence of an Element

Your Code

```
1 #include <stdio.h>
2 int main()
3 {
4     int arr[100],n,i,key;
5     int first = -1,last = -1;
6
7     printf("enter the number of elements:\n");
8     scanf("%d",&n);
9
10    printf("enter the elements:\n");
11    for(i=0;i<n;i++){
12        scanf("%d",&arr[i]);
13    }
14
15    printf("Enter the element to search:\n");
16    scanf("%d",&key);
17
18    for(i=0;i<n;i++)
19    {
20        if(arr[i] == key)
21        {
```

Input

7
2 5 3 5 8 5 1
5

Output

enter the number of elements:
enter the elements:
Enter the element to search:
first occurrence =1
second occurrence =5
